

# Damen's Articles Explanation

## Article-1) Business Letter (Peer Review)

Green Highlighted Text is my own work. Green Font text is work that I collaborated and edited.

## Article-2) Release and Sprint Plan

Most of my focus has been bringing my team together and keeping them on task. The sprint plan is a good example of how I elicit information from my developers and create a document to prepare them.

## Article-3) Home Design

Rough Design of website layout. Splash screen at the front to show how we got our name and as a fun first look at the website. The second page is the initial home page for any viewers. It has a log on feature for members and sign up forms for migrants and potential volunteers. Underneath that are columns that will be used to show news articles and photos that present the success of the site or happy members and other benefits for members.

## Article-4) Member Design

The member sign up is link to the main homepage where a user can click to sign up. Here they can entre all details necessary for member. The next page is a member's home page. This is where they can view the status of their current request, past requests, update their details and contact their volunteer.

## Artcile-5) Volunteer Design

The Volunteer page is again link to the main home page. Here they can submit their intention to become a community volunteer. This is not them signing up, just expressing their interest. After the application there is the volunteer home page. This shows their current jobs and has an ability to sort jobs by preference. Here they can view status' and contact member and service providers.
